BISBEE NEWS.

BISSKE, October 7, 1896. COPPERINGS.

Hugh Conlon returned to town today after several weeks hard work in the round up. Hugh says a little of that sort of thing goes a long way with him, and he is glad to be through with the job.

Some people are very busy just now prophesying a split in the Republican convention tomorrow. This is only another case of believing that which they would like to see, and don't out much figure with any one but the parties concerned,

Our leading butcher, Chas, Overlock, formerly of Tembstone, had quite an interesting exhibit in his shop today in the shape of a superbly dressed beef which dressed 950 pounds. Mr. Overlock says this is the largest beef ever dressed in the county, and we guess he ought to know. When we consider that a beef loses about half its weight in dressing we can readily imagine what a monster this one must have been.

The Bisbee Bryan Club turned out flags and all other necessary features. They paraded about town for some time showing their special enthusiasm for "Our Mark" and Scott White, and then adjourned to the Library Square where they held some interesting exercises. We were surprised at the turnout ourselves, as we thought our Democratic friends were all asleep. We are satisfied now that their claims of strength are not altogether unfounded and think they may carry the county in the course of eighteen or twenty years.

The delegates to the Democratic county convention returned from Tombstone this evening, bringing with them the first news in regard to the ticket. The Democrat in commenting on their nominees this evening gives us the following: "The Democratic county convention, which met in Tombstone yesterday, gives to the They will be swamped on November people of Cochise county some candidates whom they need not fear to trust." We agree with the gentleman When you go into politics make up on this point as we have several would be a little more specific and let us know which ones he had in mind. COLUNIOUNG.

The Nogales Bank Robber is Identified-A Reward.

The Albequerque Citizen in *peaklog of the dead bandir, Cale Young,

The body of the dead bandit, who, with his companions, made a signal failure in scoring any money from their attempt to hold up the No. 2 passenger train, has been viewed today by a large crowd and while it is thought by somethat he was in this by others that the man is not known hereabouts.

It is I arred that Mr. Loomis, who came in with the hody but left an hour later for Socorro, stated that the dead man was wanted for similar crimes elsewhere and that there are rewards aggregating \$2,700 for his capture dead or alive. He identified the remains as that of Cole Young.

The hat worn by the dead man shows that it was purchased from Soto Bros., of Wilcox, A. T. He is a sparsely built man, about five feet -ix inches in beight, weight about 145 pounds, and cannot be more than 25 years of age.

There was nothing on: the person of the dead bandit to indicate that his real name is "Cole Young." A plain gold ring was on one finger of the left hand, and Mr. Walker is under the impression that the robber must have been left handed, for when the body was found the revolver was tightly gripped by the left hand and three empty shells indicated that he had fired three times before receiving the deadly bullets. He had \$1.45 in money in his pockets.

teen years she has been badly broken teen years she has been badly broken out all over her body, causing her untold suffering, and frequently rendering her unable to attend school. Her arms and limbs would crack open and bleed, then dry up and scale off by the handful, and at one time an awful sore appeared on her ear, which became severely inflamed and almost dropped off. The discase also broke out on her head and her hair was a continuous mass of scales. Her condition was truly pitiable.

"Of course we have done all we could to relieve her, and have given her al-most every known treatment. She has taken potash mixtures and various salves and external applications by the whole-sale, and almost every so-called blood remedy, all without the slightest benefit, and year be year we could not feel the slightest encouragement that she would ever be well. I was advised several times to send her to Hot Springs, and also to a celebrated spring in Michi-gan, and was told that this was the only

gan, and was told that this was the only chance on earth of her ever being cured, as the disease was too aggravated to be checked by medicines.

"A few months ago, someone recommended S. S. S., and as soon as her system had taken on the effects of this medicine, an improvement was noticed. She grew better all the while and continued to improve in every way. We were delighted to see her so much better and for the first time felt flut she would get well. The medicine was continued a white longer, and now she is cured sound and well, her skin is clear and pure, and she has been saved from what threatened to blight her life forever. The cure is all the more remarkable because she inherited the disease, which has been in our family for several generations, and I am happy to find in S. S.
